Database and Geographic Information Systems: Useful sites

Vassilis Pappas
Volos 20/03/2007

The following sites are specialized to G.I.S. with useful information, data, software, etc. based on my personal experience (is not a complete guide). The explanation text in quotes is as it appears in the relevant site.

- www.eurogi.org..... "European umbrella organisation for Geographic Information".
- www.isprs.org..... "International Society for Photogrammetry and Remote Sensing".
- www.ec-gis.org..... "The EC GI & GIS portal provides information on European GI & GIS Activities including information on GI & GIS Activities within the European Commission".
- www.gsdi.org..... "Global Spatial Data Infrastructure Association. The GSDI Association is an inclusive organization of organizations, agencies, firms, and individuals from around the world".
- www.opengis.org..... "The Open Geospatial Consortium, Inc.® (OGC) is a non-profit, international, voluntary consensus standards organization that is leading the development of standards for geospatial and location based services".
- www.ncgia.ucsb.edu..... "National Center for Geographic Information and Analysis" USA.
- www.freegis.org..... "Software overview on Free Geographic Information Systems and communication on developments, plans, infos on Free GIS Software and Free Geo-Data".
- www.geocomm.com..... "The GeoCommunity™ is THE place for the Geographic Information Systems (GIS), CAD, Mapping, and Location-Based industry professionals, enthusiasts, and students to gather".
- www.agi.org.uk..... "Association for Geographic Information" UK.
- www.gis.com..... "The Guide of Geographic Information Systems".
- www.geoplace.com..... "The authoritative resource of spatial matters".
- <http://gislounge.com>..... "Geographic Information Systems – GIS of Interest".
- www.gisdevelopment.net..... "The Geospatial Resource Portal".
- www.lib.utexas.edu/maps/..... "Perry-Castañeda Library Map Collection". University of Texas, USA
- www.geo.ed.ac.uk/agidict/welcome.html "Welcome to the GIS Dictionary. ... The dictionary includes definitions for 980 terms compiled from a variety of sources which either relate directly to GIS or which GIS users may come across in the course of their work".
